SEIKA GLOBAL

Supply that keeps pace with your site

Seika Global is a supply and engineering company run by specialist mechanical engineers. With Quick Supply, it quotes all plumbing, heating, air conditioning, sanitaryware and smart home products for residential projects in one offer.

01

Send your list

Your BOQ or material list, in any format.

02

Choose the quality level

Economy, Standard or Premium; per item if you wish.

03

Our engineers check it

The list is matched to current prices; missing items are added.

04

We reply within 1 business day

By email.

Requests received on weekends or Turkish public holidays are handled on the next working day.

QUALITY LEVELS

Choose the level that suits your project

The level you choose applies to the whole list. We can also price items at different levels, e.g. plumbing Standard, sanitaryware Premium.

Economy

Budget-driven projects

- Certified products that meet standards
- Widely used brands, easy to service
- Housing for sale and fast-track projects

Standard

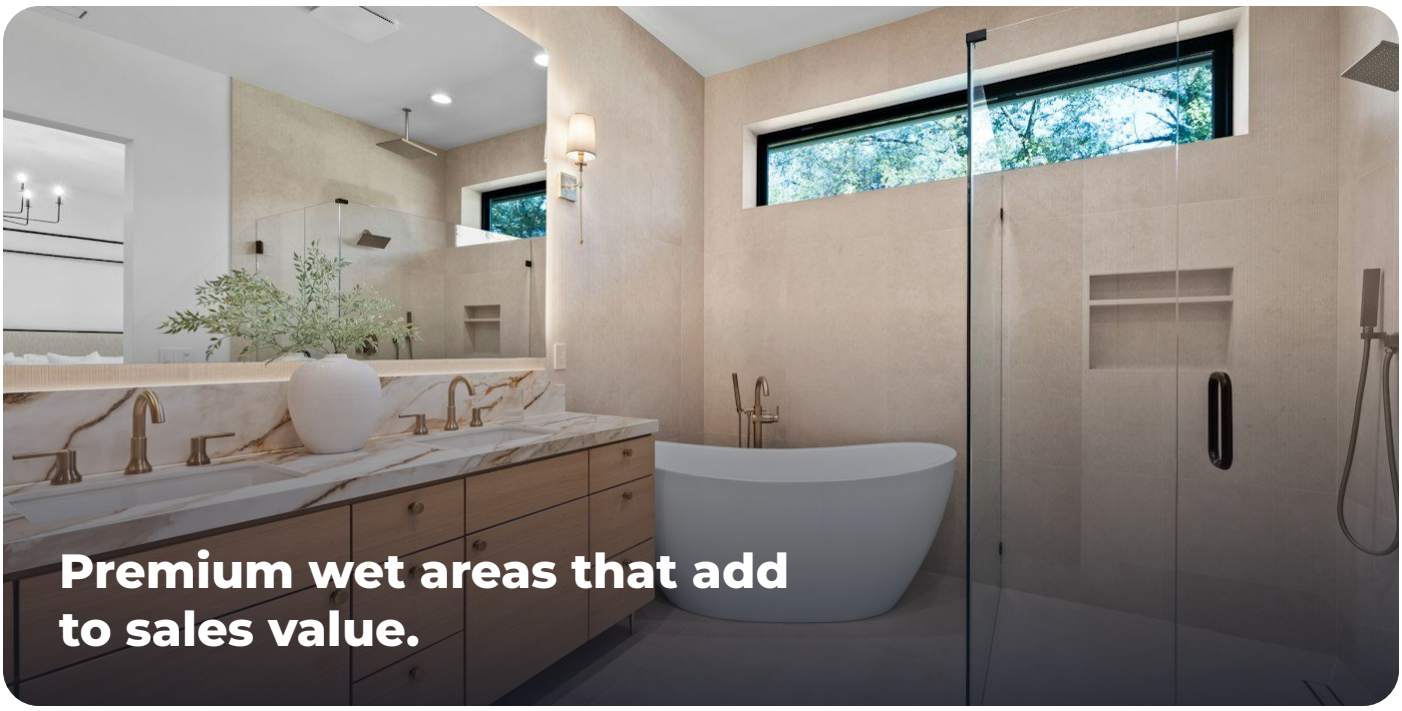

Most popular

- Best balance of price and quality
- Brands proven on site
- Most common choice for housing complexes

Premium

High-end projects

- Long-warranty, design-led products
- Luxury housing and residences
- Details that add sales value

Seika

PLUMBING

Water, wastewater and drainage

Water supply installation

- PP-R pipes and fittings
- Glass-fibre and foil PP-R pipes
- PP-RCT pipes
- PE-RT and PE-X pipes
- Manifolds and valves
- Pressure reducers and meters

Wastewater installation

- PVC wastewater pipes and fittings
- Low-noise wastewater pipes
- Fire-resistant and halogen-free pipes
- HT-PP pipes and fittings
- Rainwater downpipes
- Cleanouts and clamps

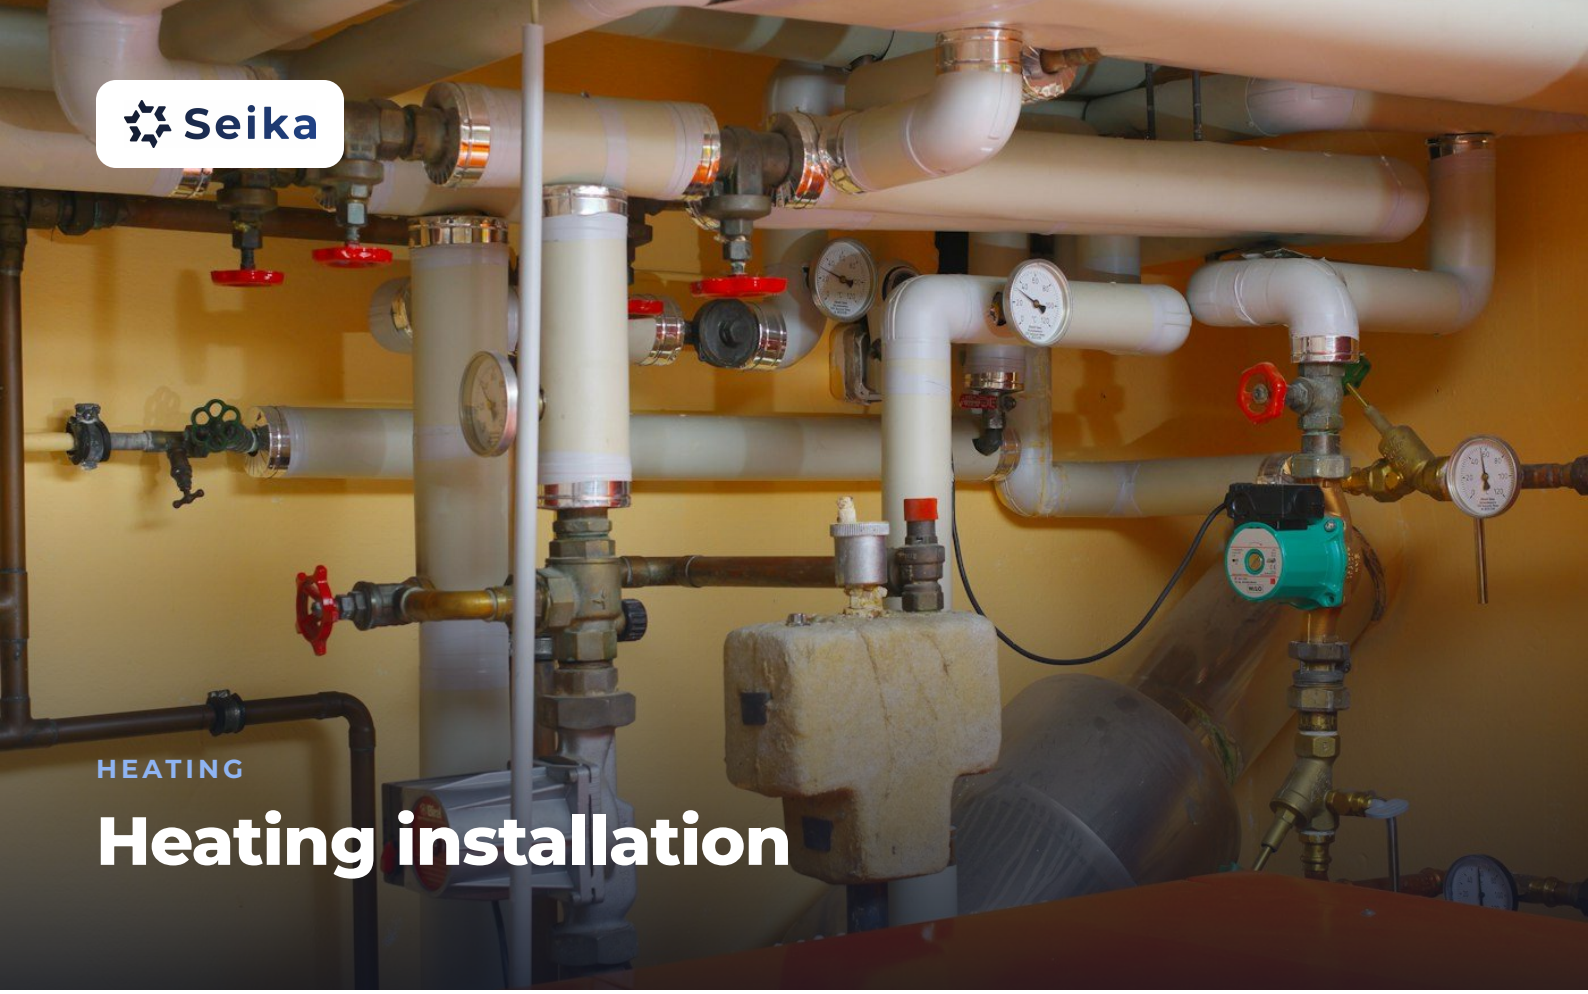

Floor drains and drainage channels

- Linear shower drains
- Floor drain sets
- Tile-in and adjustable drains
- Membrane-compatible drains
- Terrace, balcony and roof drains
- Anti-odour flaps
- Polymer drainage channels
- Gratings and manhole covers

Siphonic rainwater drainage

- Siphonic roof outlets
- HDPE siphonic drainage pipes
- Siphonic support and fixing systems
- Overflow (emergency) outlets

HEATING

Heating installation

Underfloor heating

- Underfloor heating pipes
- Flowmeter and thermostatic manifolds
- Insulation boards and edge strips
- Wired and wireless room thermostats
- Manifolds and manifold cabinets
- Mixing and pump groups
- Screed additive
- Zone control valves

Heating installation equipment

- Thermostatic radiator valves
- Safety groups
- Dirt and magnetic filters
- Circulation pumps
- Radiator connection pipes
- Air vents and air separators
- Expansion vessels
- Low-loss headers

Seika

HEAT SOURCES AND EMITTERS

Boilers, radiators and stainless flues

Boiler

- Condensing boilers
- Cascade boiler systems
- Room thermostats
- Wireless and smart thermostats

Radiators and towel rails

- Panel radiators
- Bottom-connection panel radiators
- Sectional aluminium radiators
- Decorative designer radiators
- Aluminium towel rails
- Stainless steel towel rails
- Electric towel rails
- Any RAL colour and wood finish
- Valves, rosettes and pipe covers
- Floor mounting and electric kits

Stainless flues

- Double-wall insulated flues
- Single-wall flues
- Boiler room flues
- Cascade flue systems
- Fireplace flues
- Kitchen hood flues

Seika

CLIMATE CONTROL

Air conditioning and heat pumps

Split and multi-split

- Wall-mounted split units
- Floor-standing (console) units
- Multi-split systems
- Copper pipe, drain and installation kits

Solutions for commercial floors and complexes

- Ducted units
- Cassette units
- VRF systems
- Central control panels

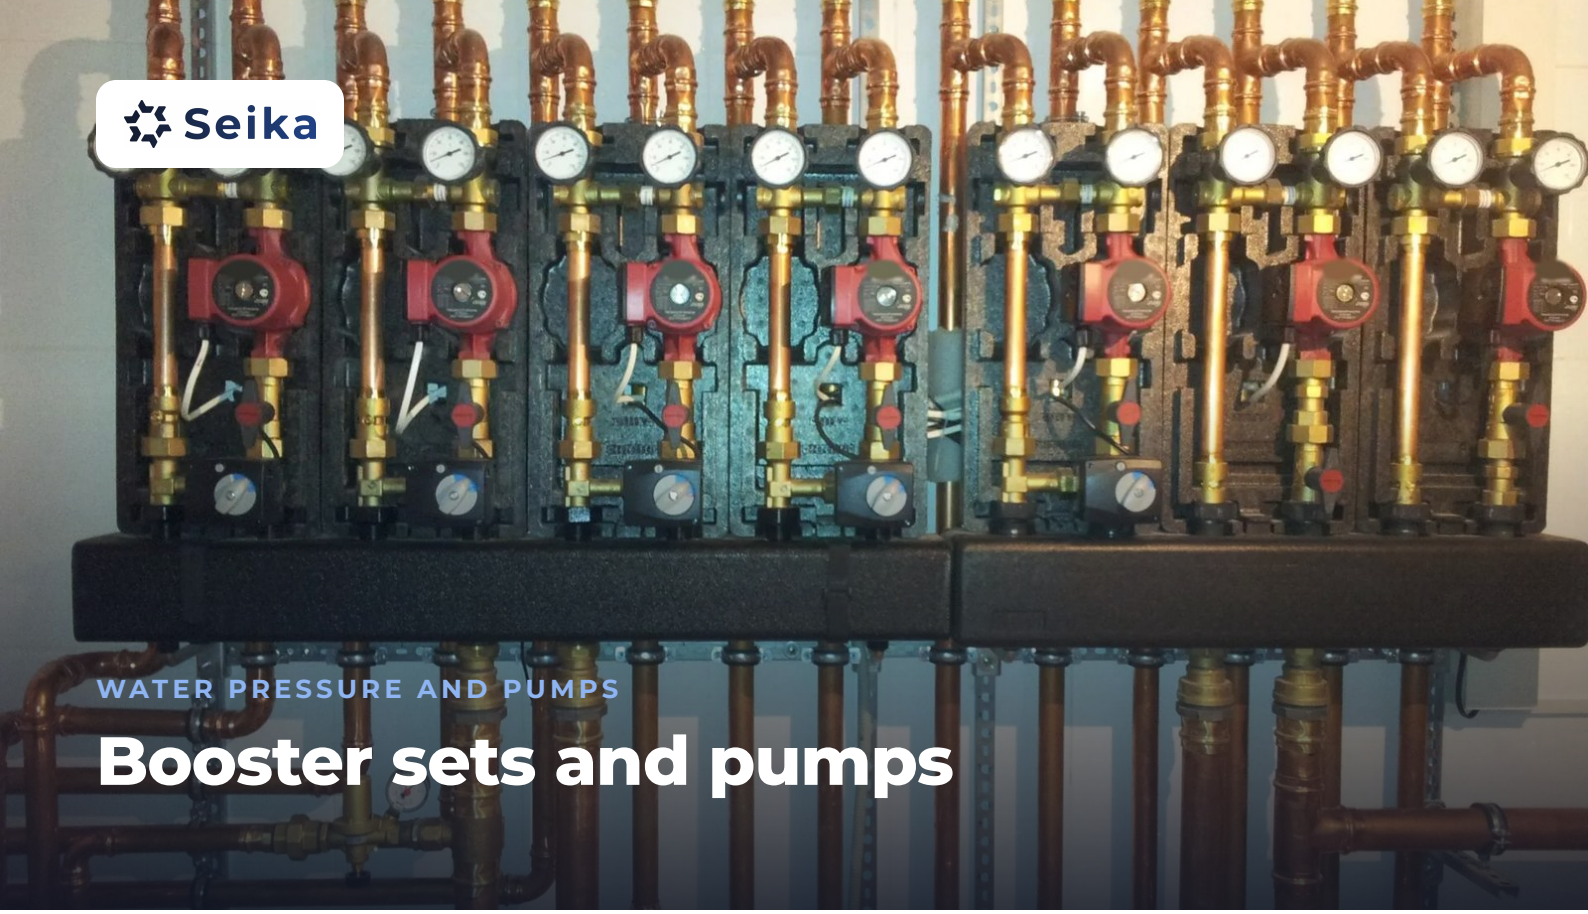

Heat pumps

- Air-to-water heat pumps
- Hybrid heat pumps
- Heat-pump-ready underfloor heating
- Hot water heat pumps

Air quality and control

- Air purifiers
- Air purifiers with humidifier
- Remote control via app
- Energy use tracking

Seika

WATER PRESSURE AND PUMPS

Booster sets and pumps

Water pressure and storage

- Packaged booster sets
- Flow-controlled domestic boosters
- In-apartment pressure boost pumps
- Booster and expansion vessels
- Modular water tanks
- Stainless and GRP panel tanks

Wastewater and drainage

- Macerator wastewater lifting units
- Wastewater lifting stations
- Submersible drainage and sewage pumps
- Condensate pumps

Circulation and fire

- Heating circulation pumps
- Hot water circulation pumps
- Fire pump sets
- Jockey pumps

seika.com.tr/en/teklif · export@seika.com.tr

WET AREAS

Sanitaryware and taps

Sanitaryware

- Wall-hung and floor-standing WCs
- Washbasins and vanity units
- Kitchen sinks
- Concealed cisterns
- Shower trays and enclosures
- Bathroom accessories

Taps

- Basin and bath mixers
- Concealed shower systems
- Kitchen sink mixers
- Bidet taps and angle valves

seika.com.tr/en/teklif · export@seika.com.tr

EARTHQUAKE AND FIRE SAFETY

Seismic bracing and passive fire

Seismic protection

- Seismic hangers and sway bracing
- Flexible connectors and seismic joints
- Earthquake-resistant pipe supports
- Seismic cable systems
- Equipment seismic restraint kits
- Seismic gas shut-off valves

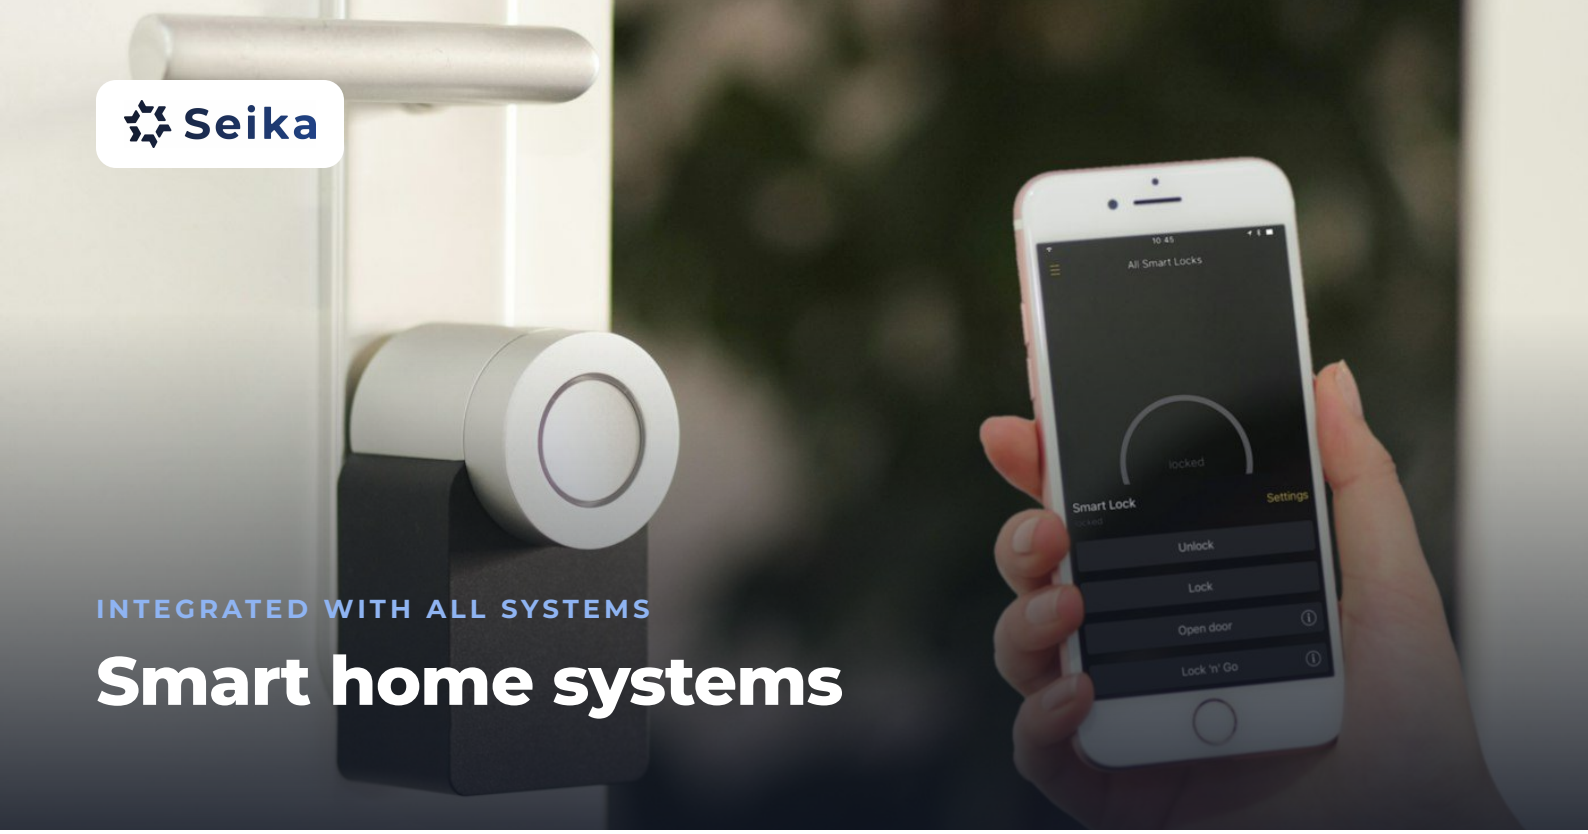

Passive fire stopping

- Fire-stop pipe collars
- Fire pillows and blocks
- Fire-rated foams
- Fire-stop sealants
- Cable and pipe penetration systems
- Duct fire dampers

Supports and insulation

- Acoustic pipe clamps
- Elastomeric foam insulation
- Modular support and bracket systems
- Vibration isolators

INTEGRATED WITH ALL SYSTEMS

Smart home systems

Climate and energy

- Smart room thermostats
- Wireless radiator heads
- Room-by-room heating and cooling
- AC and heat pump control
- Underfloor heating zone control
- Energy use tracking

Water and plumbing safety

- Water leak sensors
- Automatic shut-off valve
- Booster and pump monitoring
- Hot water scheduling

Lighting, blinds and security

- Smart switches and dimmers
- Scene and scenario control
- Motorised blinds, shutters
- Smart door lock
- Video intercom and cameras
- Smoke, gas and motion sensors

CALCULATORS

No list yet? Size it on our website.

Pre-size your project in seconds and add the result straight to your quote request.

Air conditioner capacity

Room area → BTU and indoor unit

Boiler capacity

Flat area → kW

Panel radiator

Room area → radiator size

Underfloor heating

Area → pipe length, manifold

Booster set selection

Flats, floors → flow, pressure

Water tank volume

Number of flats → litres
